Shark Week: Investigate & Dissect

This year the MRSPA Community Service Committee received 58 applications from 15 school systems/counties across the state. The applications all expressed the varied needs of today's teachers.

A winner was selected from each of the MRSPA Areas, from Area I West through Area III South.

Winners and their principals were notified via email and US Mail. Because most schools are closed, the principals graciously agreed to present the \$300 checks to the winners. The Area II North winner was Pre-K Teacher Alexis Haab from Lake Shore Elementary School in Anne Arundel County. Her project is *Hands on Learning*. (Picture not available.)
